Chemistry for a more sustainable future Report

We create chemistry for a sustainable future

We want to contribute to a world that provides a viable future with enhanced quality of life for everyone. We do so by creating chemistry for our customers and society and by making the best use of available resources.

(01) Chemistry for a more sustainable future (05-23-2022 / 1'48 / MIX / Report)

We create chemistry for a sustainable future

We want to contribute to a world that provides a viable future with enhanced quality of life for everyone. We do so by creating chemistry for our customers and society and by making the best use of available resources.

TRANSCRIPT

Comment

- 00:17 – 00:20 *Why are we excited about the mobility of the future?*
- 00:23 – 00:26 *Why do we develop biodegradable materials?*
- 00:30 – 00:33 *Why are we committed to sustainable farming?*
- 00:39 – 00:43 *Why are we determined to make lithium-ion-batteries recyclable?*
- 00:47 – 00:50 *Why are we working on a new process for producing hydrogen?*
- 00:53 – 00:56 *Why are we building a smart Verbund site in China?*
- 00:58 – 01:00 *Why are we thinking in cycles?*
- 01:04 – 01:07 *Why do we develop innovative solutions for our customers?*
- 01:10 – 01:14 *Why are we building the biggest offshore wind farm in the world?*
- 01:18 – 01:21 *Why are research and development at the chore of our company?*
- 01:28 – 01:37 *Because we're on a journey to a more sustainable future.
With our chemistry, we can make that journey go faster.*
